SUMMARY

Full stack web developer educated at UC Berkeley Extension with a Bachelor of Arts in Humanities from San Francisco State University. Skills include HTML, CSS, JavaScript, and React.js. As a curriculum developer, creating courses for developers made me interested not only if something works, but how it works. Worked on multiple team projects while earning a certificate from UC Berkeley and am passionate about working with others to achieve a common goal. Excited to put computer programming skills into practice and eager to continue learning new tools and concepts.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

EXPERIENCE

Curriculum Developer   2020 – Current
EIS Group Ltd.   San Francisco, CA

Created courses for developers and business analysts on how to use the company's proprietary software. Worked closely on a small team to curate SME knowledge from different parts of the company. Enabled our employees, partner's employees, and client's employees to understand and utilize our software.

Bartender   2017-2020
Beer Nerds   San Francisco, CA

Assisted in conceiving, planning, and opening this craft beer bar in the Mission District of San Francisco. Worked as a bartender with extra managerial responsibilities including sourcing and purchasing craft beer, designing menus, and helping hire and train new bartenders and chefs.

PROJECTS

Vroom | GitHub: https://bit.ly/34QqIUr **|** Deployed Project: https://bit.ly/34QqYmn
- This app was created for people who want to connect over long distances. Add friends, create rooms, join rooms, and video chat with your friends and family.
- Responsibilities: Project lead, server configuration, database setup, CRUD API's, socket.io implementation.
- Technologies: React.js, MongoDB, Mongoose, Express.js, Socket.io, GraphQL, Apollo.

Covid-19 DataHub | GitHub: https://bit.ly/3kkfiOb **|** Deployed Project: https://cvdatahub.com/
- This app was created to provide up-to-date statistics about the COVID-19 pandemic as well as provide a place to search for testing centers in the U.S.
- Responsibilities: Map of testing centers in US, localStorage functionality, HTML/CSS, API calls.
- Technologies: Javascript, HTML, CSS, jQuery, Moment.js.

CA Critter Tracker | GitHub: https://bit.ly/35dPcpu **|** Deployed Project: https://bit.ly/2TdmhN1
- This app was created to report animal sightings in California to assist in tracking wild animal migrations during an outbreak of wildfires.
- Responsibilities: Project lead, Handlebars.js templates and routes, database models, server configuration, API routes.
- Technologies: JavaScript, HTML, CSS, MySQL, Sequelize, Express.js, express-handlebars, express-session, bcrypt, dontenv.

EDUCATION

Bootcamp Certificate: UC Berkeley Extension, Berkeley, CA
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

BA in Humanities, Minor in History: San Francisco State University, San Francisco, CA
